

Do not let them lure you into dropper rigs and chunks of lead flicked off the bow of a driftboat. At least not yet. Same for strike indicators. Take your time. Learn each lesson for yourself. Cast. Look at bugs. Learn where fish hide. Enjoy the sound of water spilling over rocks. A Triumph® fly rod is an able-bodied accomplice for this adventure. It's built from the same SC^{II} graphite as our Reign™ series but with more modest components. Basically a smooth, moderate-fast action rod for anyone who's ready to learn the right way – including your kids with our T766.2 and TK766.2 youth models.

Learning to fly fish is one of life's greatest pleasures. Take your time.
